**Re: Groundwater Sampling Frequency**

Al Phillips the Cleaners, Inc.  
3661 South Maryland Parkway  
Las Vegas, Nevada

NDEP ID#: H-000086

Dear Dr. Siders:

On behalf of Al Phillips the Cleaner (Al Phillips), URS Corporation (URS) has prepared this response to the Nevada Division Environmental Protection's (NDEP) letter dated December 14, 2007, regarding scheduling of groundwater sampling events and the request for additional groundwater characterization at the site referenced above. Al Phillips agrees to monitor new wells MW-28, MW-29, and MW-30 during forthcoming sampling events. These three new wells were initially sampled during the fourth quarter of 2007 on November 6, 2007.

Regarding NDEP's recommended sampling frequency for site monitoring wells, Al Phillips agrees to follow NDEP's recommendation with the exception that the annual sampling event (wells MW-3, MW-7, MW-8, MW-10, MW-12, MW-15, MW-16, MW-21, MW-22, and MW-24) be performed in December 2008 in conjunction with the semi-annual sampling event in December 2008 (all remaining wells except MW-11). The rationale for this change to the sampling schedule is that the schedule proposed by NDEP does not allow sampling of all 29 wells during one sampling event during the year. This requested revised schedule will allow all the wells to be sampled once during the year, during the December sampling event, as during the prior three years, and allow a broader comparison of the analytical data over time. In addition, these low concentration wells to be sampled annually were recently sampled during December 2007.

If this one modification to NDEP's recommended sampling schedule is acceptable, we would ask that NDEP provide a letter of agreement to Al Phillips. If you have a question regarding this request, please contact the undersigned at (702) 492-7921 or (702) 738-2103.

Sincerely,

**URS Corporation**
